Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Regarding claim 1, the phrase "and is not limited to" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "not limited to"), thereby rendering the scope of the claim(s) unascertainable.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1- 6 as well as understood are rejected under 35 U.S.C. 103(a) as being unpatentable over Chough in view of Carney. Chough discloses the elements of claim

Art Unit: 3711

1 with the exception of plates and counter set screws. Carney discloses the use of plates and counter set screws (fig 1). It would have been obvious to one of ordinary skill in the art at the time of the invention to have employed the plates and counter set screws of Carney with the device of Chough in order to more easily repair the device when damaged or non-functional.

As to claim 2 as well as understood: Chough discloses a tubular shaft (fig 2 item 37).

As to claim 3 as well as understood: Chough discloses two chambers (fig 2 item 47).

As to claim 4 as well as understood: Chough discloses rollers are parallel with the putting surface (fig 2).

As to claim 5 as well as understood: Carney discloses bottom plates that keep the components housed within said putter head (fig 1).

As to claim 6 as well as understood: Carney discloses counter sunk screws (fig 1 item 4).
